

TOSHIBA

Portable Wireless Bluetooth Speaker

SKU: TY-WSP21

SILKY DESIGN

Oval in shape which gives a classic touch to this speaker, the smooth lines, and curves give

TY-WSP21 a graceful look. The changeable colored rings on top give added value as it fits with various occasions that you have. It helps you in creating the mood that you want the occasion to carry. The changeable rings come in red, green and silver colors.

Being quite compactly designed and lightweight at just 137gms, TY-WSP21 is a stylish addition to any home.

SPLASH PROOF

Now you can carry your TY-WSP21 to pool sides, beaches or bathrooms to enjoy your favorite music without worrying about splashes of water spoiling your mood. TY-WSP21 is IPX-4 water resistant. It can resist water splashes from all directions.

SOUND CLARITY

Toshiba has crafted TY-WSP21 with unmatched sound clarity. Its 40mm 3ohm 3W speaker driver let you experience your favorite music with crystal-clear clarity and volume. The speaker is tuned to project crisp, clear, powerful sound above the noise of running water. TY-WSP21 can be used as a good alternative to built-in speaker on most laptops as it can give you a crisper, clear and louder sound.

CONNECTIVITY

TY-WSP21 offers simple and seamless connectivity to almost all Bluetooth enabled devices using Bluetooth® 4.1 EDR, Class 2. A frequency range of 2.4GHz (2.402 - 2.408 GHz) and service distance of up to 10m. Once connected to your device with TY-WSP21, you can enjoy uninterrupted music with great clarity.

CHARGING

TY-WSP21 has a rechargeable and internal Lithium Polymer ION Battery (330mA). Battery offers up to 8 hours of listening with each full charge.
